Company Profile

Who We Are?

Azone Projects is a hybrid IT services company operating both remotely and from our office headquarters, offering flexible, scalable, and result-driven solutions to clients across various industries.

We specialize in helping startups, entrepreneurs, and small to medium-sized businesses build a strong digital foundation through:

- Modern website development
- Seamless automation and AI integrations
- Impactful branding and digital marketing
- Efficient e-commerce and data-driven solutions

Whether you're located next door or across the globe, our hybrid model allows us to provide personalized service and hands-on support, both online and in person.

ABOUT US

Our Mission

“Blending the convenience of remote work with the reliability of office-based support — for smarter, faster results.”

To deliver high-quality, intelligent, and affordable IT solutions that help businesses grow, automate, and thrive in a competitive digital landscape.

At Azone Projects, we are committed to:

- Offering flexible service delivery — online or on-site
- Using cutting-edge technology and AI tools to optimize business performance
- Providing end-to-end support, from project planning to execution
- Maintaining a client-first approach, with transparency and integrity at every step

SERVICES WE OFFER

“Azone Projects – Smart IT Solutions for Modern Businesses”

We offer a comprehensive range of IT and digital services designed to help businesses start, grow, and scale — whether you're local or remote.

Web Development

- Responsive websites (WordPress, Wix, HTML)
- E-commerce store setup (Shopify, WooCommerce)
- Landing pages for ads & marketing campaigns
- Ongoing website maintenance & support

Digital Marketing & SEO

- SEO audits & optimization
- Google Ads / Meta Ads setup & management
- Social media strategy & content design
- Email marketing campaigns

Mobile App Development

- Android & iOS app development (Flutter, React Native)
- Business apps, service booking apps, e-commerce apps
- App UI/UX design & prototyping
- App testing, launch, and support services

E-Commerce Solutions

- Store setup & configuration (Shopify, WooCommerce)
- Product listing, optimization, and automation
- Payment gateway & shipping integration
- UI/UX improvements for better conversions

SERVICES WE OFFER

“Azone Projects – Smart IT Solutions for Modern Businesses”

We offer a comprehensive range of IT and digital services designed to help businesses start, grow, and scale — whether you're local or remote.

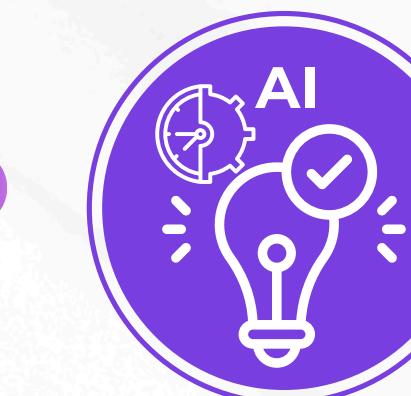

Branding & Creative Design

- Logo & brand identity packages
- Social media post templates
- Brochures, flyers, business cards
- Presentation decks & pitch design

Data & Reporting Services

- Dashboards (Google Looker Studio, Excel, Sheets)

- Market and competitor analysis
- Data visualization for decision-making

AI & Automation Services

- Chatbot integration (GPT-powered, Dialogflow)
- Workflow automation using Zapier / Make (Integromat)
- AI tools setup for content, image & email automation
- CRM automation & calendar integrations

Content Writing

- Website content (Home, About, Services pages)
- Blog articles & SEO-friendly posts
- Product descriptions for e-commerce
- Social media captions, ad copy & email content

WHY CHOOSE US

“Azone Projects – Your Trusted Partner in Digital Growth”

Choosing the right IT partner can make or break your business. At Azone Projects, we offer more than just services — we provide solutions that work, tailored to your needs, budget, and goals.

Hybrid Model – Remote + Onsite Support

We operate both remotely and from our physical office, giving you the flexibility of digital services with the reliability of in-person support when needed.

Cost-Effective, High-Impact Solutions

We offer affordable pricing without compromising quality. Our services are designed to give you the best ROI, especially if you're a startup or small business.

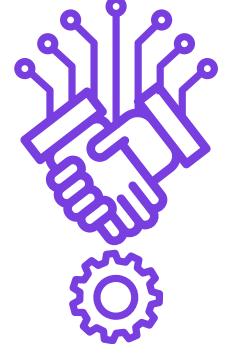

Fast Turnaround Times

We value your time. From websites to content to automation tools, we ensure quick delivery without delays — so you can launch and grow faster.

End-to-End Service

From planning to execution to post-launch support, we handle it all. You don't have to deal with multiple vendors — Azone Projects is your one-stop solution.

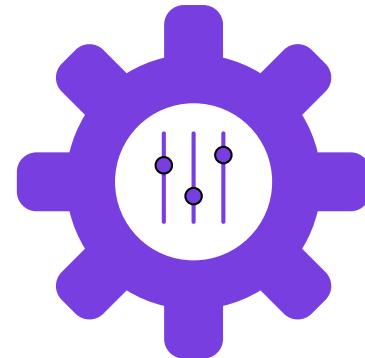

Tech-Savvy + Human-Centered Approach

We blend the latest tools, AI, and automation with a human-first mindset — giving you innovative solutions that are easy to use and manage.

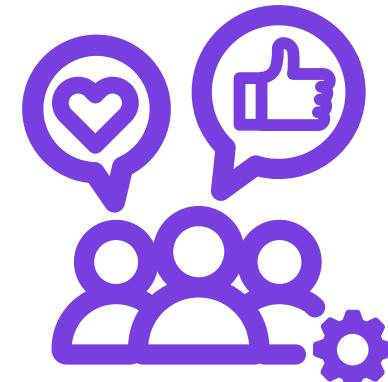

WHY CHOOSE US

“We don’t just deliver projects — we build partnerships for long-term success.”

Scalable & Customizable Services

Our services grow with your business. Whether you’re just starting or scaling to the next level, we adapt to your needs at every stage.

Proven Client Satisfaction

Our track record speaks for itself — we’ve helped dozens of clients launch, improve, and expand their digital presence with lasting impact.

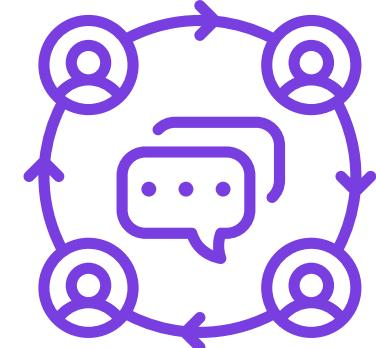

Free Consultation & Strategic Guidance

We offer free initial consultations to understand your goals and propose the best-fit solutions — no pressure, just clarity and direction.

Diverse Industry Experience

From e-commerce and education to healthcare and services, we have hands-on experience across multiple industries, which helps us bring tailored insights to your project.

Transparent Process & Communication

We believe in clear communication, regular updates, and full transparency — so you’re never in the dark about your project’s status or scope.

OUR PRODUCTS

“Innovative Technology for Safer, Smarter, and More Efficient Businesses”

We provide an extensive range of 50+ AI-powered and smart technology solutions tailored for businesses, startups, educational institutions, and service providers.

From CRM, HRM, and healthcare systems to e-commerce, booking platforms, security, and automation – our solutions are intelligent, scaleable, efficient, and fully customizable.

Our Key AI & Smart Technology Projects

- **AI-Based Weapon Detection System** – An advanced computer vision solution capable of detecting weapons in real-time from CCTV feeds, enhancing public safety in high-security areas.
- **AI-Based Attendance Management System** – A fully automated attendance solution using facial recognition to eliminate manual errors and streamline workforce management.
- **AI-Based Driver Drowsiness Monitoring System** – Real-time monitoring of drivers' facial and eye movements to detect fatigue and prevent road accidents.
- **Face Mask Recognition System** – AI-powered solution for identifying and ensuring compliance with face mask-wearing policies in public and private spaces.
- **Iris-Based Attendance System** – High-security biometric attendance system utilizing iris recognition for maximum accuracy and reliability.
- **RFID-Based Attendance Management System for Schools** – Contactless RFID-based solution for tracking student attendance, improving accuracy, and enhancing school safety.

LATEST TECHNOLOGIES WE WORK WITH

Amazon Web Services (AWS) – Cloud infrastructure for hosting, storage, and scalable computing.

Microsoft Azure – Cloud solutions for AI, analytics, and enterprise-grade applications.

GitHub Actions

CI/CD Pipelines (Jenkins, GitHub Actions) – Automated builds, testing, and deployment.

TensorFlow

AI & Machine Learning Frameworks (TensorFlow, PyTorch) – Intelligent automation and analytics.

“Empowering businesses with cutting-edge tools for scalability, security, and speed”

Docker & Kubernetes – Containerization and orchestration for efficient, portable deployments.

Google Cloud Platform

Google Cloud Platform (GCP) – Advanced AI, machine learning, and cloud hosting capabilities.

ANSIBLE

HashiCorp
Terraform

DevOps Tools (Ansible, Terraform) – Infrastructure as Code for faster, more reliable setups.

Integrating the latest tech to future-proof your business.
